

PHYSICAL ACTIVITY AND EXERCISE TRAINING IN OBESITY: EASO and ASO webinar series

THURSDAY, 18TH NOVEMBER 2021 &
THURSDAY, 2ND DECEMBER 2021

Exercise training can help support management of overweight and obesity in adults, and can contribute to health benefits beyond “scale victories”. Further to the EASO Exercise Training Supplement published recently in Obesity Reviews, we are pleased to announce an upcoming webinar series held in collaboration with the UK Association for the Study of Obesity (ASO) on 18th November and 2 December 2021. The webinar series will explore scientific evidence around the health benefits of exercise training for people living with overweight and obesity.
